MEMORANDUM FOR: Chief, Plans and Programs Staff, OL

Bob:

I am returning this package to the Plans and Programs Staff for you to hold for future (time indefinite) reference. Based on a discussion with [REDACTED] it appears that DD/O has been charged to get together with the appropriate element of the Joint Chiefs of Staff to review what the military is doing or intends to do in the field of [REDACTED] support and what we think we ought to be doing.

25X1A

This project will probably take a little time because it will involve a joint military/Agency team visiting our installations as well as a number of military installations and then sitting down at a seminar (probably at [REDACTED] to discuss the problem and come up with a position paper that could then be presented to "higher authority." I briefed Blake on this and Mike as well; so, as of now, our [REDACTED] study goes into the files until some later date. Be sure to make some reference to this status in the next action plan review which is currently programmed for some time in July. Based on whatever discussions are held with Brownman at that time, the objective with regard to [REDACTED] may be either cancelled or deferred.
